

## STORAGE & CONTAINERS · MOBILE FLUID HANDLING

# Flexsafe® 2D Bags

## Flexible single-use solutions for critical fluid handling

BioProcess Supplies (BPSSU) offers ready-to-use Flexsafe® 2D bag assemblies for media and buffer preparation, cell harvest, downstream processing, and fluid storage. Available in multiple volumes and configurable with filters, sterile connectors, and tubing options, each assembly is gamma-irradiated and supplied with supporting quality documentation.

### STANDARD VOLUMES

3 L

Sartopore® 2  
Size 4

5 L

Sartopore® 2  
Size 4

10 L

Sartopore® 2  
Size 4

20 L

Sartopore® 2  
Size 7

50 L

Sartopore® 2  
Size 7

### Trusted Sartorius Film

Three-layer LLDPE / EVOH / LLDPE construction — robust, gas-barrier, low extractables.

### Ready to Use

Gamma-irradiated, integrity- and leak-tested by manufacturer, supplied with full quality certification.

### Built for Your Process

Three ports plus customizable filters, sterile connectors, and tubing — standard or custom.

### APPLICATIONS

- Media preparation
- Buffer preparation
- Cell harvest
- Downstream processing
- Sterile storage and shipment of critical liquids

### COMPLIANCE & TESTING

- USP Class VI
- USP <87> cytotoxicity & ISO 10993
- USP <88> biological reactivity & ISO 10993
- Endotoxin: USP <85> & Ph. Eur. 2.6.14
- TSE/BSE: EMA/410/01 & Ph. Eur. 5.2.8
- Visual inspection & leak-proof testing performed by manufacturer
